Just to remember it, here you find the eight questions that we asked the entrepreneurs:

1. Where did the idea to start your own business come from?
2. What did you have to do to set up your company? Did you have any difficulties?
If yes, what difficulties?
3. What was the process of the company registration like? Is it simple or complicated to register a company in your country?
4. What are the top three skills needed to become an entrepreneur?
5. What are the main advantages of being an entrepreneur?
6. What do you think of your decision to set up your own business after some years of being the owner of the company? Are you satisfied with being self-employed or would you rather work for somebody now?
7. If you had the chance to start over again, what would you do differently?
8. Please give three pieces of advice you would give to high school students who think of becoming entrepreneurs.

➤ **Assignment:**

Each group watches one of the videos, in 10 minutes you must switch to another video and watch it. If you have any questions, you should ask the two students who are in charge for it, but if it is the **Polish** or the **Finnish** video, you should ask your questions on FB directly to the students who have worked on it. Don't forget that on Tuesday you'll have to work on it. Try to make notes of the most important issues.

Don't forget to take photos
